The Gut Health Protocol John G. Herron 2016-07-31 Second Edition! "THANK YOU !!!! I have been suffering from IBS and SIBO for years I came across your "gut health protocol" and followed it to a T... and I truly have not felt this good in years !!!!! You have given me my life back !!!!! I never realized how sick I was, and I forgot how a healthy person should feel. I thought I had to live my life feeling the way I did. Not the case at all !! To everyone out there.... read the gut protocol, follow what is suggested...its so worth it !!!" — Jackie A. "I've been doing John's protocol for the last two months and it has helped immensely with my SIBO. My bloating and stomach distention are pretty much gone, ditto stools pretty much normal and motility much better. I had a glucose breath test (unfortunately only for hydrogen) a couple of weeks ago and it was negative... I did the protocol full swing, all of the supplements and extra antimicrobials, as well as lifestyle changes. I'm not necessarily 100% better, but it's the first thing I've done beside a ridiculously restrictive diet that has actually helped me heal. In fact, previously my diet was slowly becoming more and more restricted. Give it a try, it's good stuff. And, hey John Herron, thank you!" — Michelle M. "I would like to share that I have had such great success. My gut is probably about 90% better. I realize that it still probably has issues and this is a journey of healing and keeping it well, but I have had no bloating, belching, constipation or diarrhea, and limited moments of soreness. I feel that I am now digesting my food and the shortness of breath, heart palpitations, and discomfort in my throat are gone too." — Berea F. "I just looked at your latest

protocol and I have to say it is totally amazing! It seems more thorough than most of the 5 books I have read.
